CONSUMPTION CURED!

DR. CHURCHILL'S DISCOVERY.

Winchester's Genuine Preparation of the chemically Pure Compound of the

HYPOPHOSPHITES

of LIME, and of SODA,

Originally discovered and prescribed by Dr. J. F. CHURCHILL, of Paris, as a Specific Remedy for

CONSUMPTION!

The extraordinary results obtained in all stages of pulmonary disease by Dr. Churchill's new Treatment—the HYPOPHOSPHITES OF LIME AND OF SODA—removes all remaining doubt as to the inestimable value of this Discovery.—*Consumption is no longer to be regarded as an incurable malady.*

Many hundreds of physicians have already adopted this treatment with almost *invariable success*. Let no Consumptive delay a moment to try it. It is their last hope!

Dr. Churchill says:

"I am anxious that the HYPOPHOSPHITES should be brought, *as speedily as possible*, into universal use, as I know that they will prove not only

As Sure a Remedy in Consumption
as Quinine is in Intermittent Fever, but also
as Effectual a Preservative
as Vaccination is in Small Pox.

"*In no instance* have I found the remedy *fail to produce everything that could reasonably be expected from it.*"

"Out of twenty-two cases *in the third or last stage*, treated at my Dispensary, during the past year, *eight have completely recovered*, eight have died, and six are still under treatment. *Such a result is altogether unparalleled in the annals of Medicine.*"

This Remedy is the most powerful generator of [illegible] known, and is equally efficacious in all forms of Debility, Asthma, Bronchitis, *Nervous Diseases*, Chlorosis, Dyspepsia,—or whatever depends on deficient vitality of the system.

Winchester's Genuine Preparation

is put up in large bottles with the following words blown in the glass: "Dr. J. F. Churchill's Hypophosphites of Lime and of Soda. J. Winchester, New York." Each bottle has also a fac-simile signature.

[illegible] can be relied on as the pure Hypophosphites. Unless perfectly pure, they are not only useless, but positively injurious. No iron or other drug should be combined with them, or taken at the same time.

Price, $1,00, or three bottles for $3,00, with full directions for use. A liberal discount to physicians and the trade. The Dry Salts furnished to the profession. Single bottles in concentrated solution sent by mail, when specially ordered. Sold wholesale and retail at the Sole General Depot in the U. S., at John Street. Let no one deceive you, but purchase and use only "Winchester's Preparation."

Dr. Churchill's Work on Consumption

is now ready, and will be sent gratis to any Consumptive or Nervous sufferer in the U. S. on receipt of twelve cents in stamps to cover expense of postage. Also, circulars and all requisite information without charge. Let no one delay, but at once [illegible] as [illegible] a malady so [illegible]. Address,

How to Make Money.

It is astonishing that more people don't learn to make money, when so many seem to be striving for that end. It is just the simplest thing in the world and always was, and it seems a pity that any should fall short of their desires when this is the end to be attained. There are some it is true who wouldn't be rich on any account; who in fact would be afraid to live in any civilised community if such were the case, from the fact, that rich men are so frequently murdered for their money; or are bothered so much by friends who like to visit with those who live in fine houses, and have plenty to eat and drink. Then again, when men get rich they are very likely to die suddenly and unexpectedly, and thus be cheated out of all they are worth—then, having had a good house to live in here, they are very apt to fail to reach that "house not made with hands," according to the good book—then again, if, mind we say "if" by any unforeseen calamity the rich man looses his money while he yet lives, it comes so hard to him to always afterwards have it said by those who have eat and drank and almost slept with him, that "he amounts to nothing and never did,"—that he fears the dreadful fall, and therefore prefers not to ascend the money mountain—then, once more, rich men are so apt to get perplexed with the care of their money, and likely enough get it into their heads that they are coming to poverty, that they get twisted and hang themselves, which to the surviving relatives is a very unpleasant calamity.

But, notwithstanding all these little objections to being rich, there are a great many who are willing, and probably about the same number who really desire to try the experiment; and having fairly and openly pointed out the consequences, we propose to open the way and reveal to every one the road to wealth—the way to make money.

That every one may have time to grow calm over this anouncement, and make a little preparation for the journey they will desire to start on immediately, we defer the details until to-morrow, when we shall expect to see every aspirant for wealth at an early hour in front of the HERALD office, with knapsack in hand, and right foot forward ready to start as soon as the HERALD appears.

A Vagabond Law.

We understand that the Common Council of the City of Rochester, has passed an Ordinance requiring that every man and boy that may be found in the streets of that City after dark without a three cent piece, or that amount of good current coin in his pocket, (wouldn't a postage stamp do?) shall be arrested and sent to a place of refuge for vagabonds.—This may be a very good law, but pray where is the force to make the arrests—the food to feed, and the roofs to shelter the multitude that will be gathered up in that city if such a law is put in force?

Hogs are dying daily of a disease known as the hog cholera—and it is supposed that these animals are taken at night and sold to the butchers, and subsequently retailed by them as food. Probably the better plan would be to avoid pork altogether during the dog days.—*Exchange.*

Wouldn't it be better to let pork alone altogether? The custom before many years will be deemed hoggish!

The Hon. Elisha Litchfield, died at Cazenovia, Madison County, on the 4th inst., in the 74th year of his age. Mr. L. lived in Onondaga from 1850 to 1848. In 1820 he was sent to Congress, and was a Member of the Assembly in 1831, '32 1833 and 1834, serving as Speaker thro' the latter session. He was a very estimable man, in every relation of life, and he leaves behind him an unsullied reputation.

Eight Children at a Birth.

Correspondence of the N. Y. Tribune.

JOHNSON, Trumbull County, O., August 4th, 1859.—On the 2d of August Mrs. Timothy Bradley gave birth to eight children—three boys and five girls. They are all living, and are healthy, but quite small. Mr. B.'s family is increasing fast. He was married six years ago to Eunice Mowery who weighed 273 pounds on the day of their marriage. She has given birth to two pair of twins, and now eight more, making twelve children in six years. It seems strange, but nevertheless is true, Mrs. B. was a twin of three, her mother and father both being twins, and her grandmother the mother of five pair of twins. Mrs. B. has named her boys after noted and distinguished men. One after the Hon. Joshua R. Giddings, who has given her a splendid gold medal; one after the Rev. Hon. Champlin, who gave her a deed of 50 acres of land, and the other after James Johnson, Esq., who gave her a cow. Mr. Bradley says it is profitable to have twins, as the neighbors have clothed the others ever since they were born. Mr. B. is a poor, industrious laborer, but says he will not part with any of his children while he is able to work.

RATHER HOT.—Baron Alderson, in a letter to his son, says: "I have been obliged at last to send for Sir Benjamin Brodie, to see me for my sciatica, and to-day, by his order, I have been stewed alive in a vapor-bath. Dreadfully hot, I can tell you—140 degrees, while a hot bath is only 98 degrees. Yet it was not unpleasant after all; for hot air does not burn like hot water, as it communicates its heat gradually to you, air being what they call a bad conductor of heat. So, by the time the hot air makes you warm, a perspiration breaks out and cools you again.—People have been known to bear 400 degrees of heat without much inconvenience. Sir Francis Chantrey told me once he had gone into the oven where he baked his moulds, which is heated by a nearly red-hot plate at the bottom. He wore thick wooden shoes to protect his feet, and a flannel dress, and was able to bear it very well. That was a heat that would have baked a pie, and yet a man alive would not be heated much above blood heat, or about 100 degrees. Is not this curious? Life is able, you see, to bear heat which would roast a dead body."

A QUEER INSTITUTION.—In his examination before the Coroner's Jury, Mr. William White testified that he is the President of the "Albany, Vermont & Canada Railroad," but that it has no Corporation or Directors. What sort of a monstrosity is it then? What kind of a legal concern would the Courts and lawyers call it? A thing with a head, and perhaps a tail, but no body. We have what is known in the law and among men as individuals, partnerships, joint stock associations, and bodies corporate. But who before ever heard of a thing with a President but no Directors, Corporation or other folks to be President of? This is an invention for which certainly a patent right should be secured. It's a kind of institution that the Legislature even in its fecundity of invention never dreamed of.

The American rowdy is a terrible nuisance. Hear how the poor Dutch landlord described his suffering at the hands of one of those amiable beings: "Ter rowdy comed in and axed me to sell him sum peer. I tells 'im he had more as would do 'im goot. He calls me von ole Tuch liar, and pegun to broke two tumplers. My vife she calls for de vatch 'ouse. 'Fore de vatch 'ouse got dare, de rowdy he kick Hans Scruggle pehint his pack, kissed my taughter Petsy pefore her face, proke all ter tumplers 'cept ter ole stone pitcher, and spilt my vife and todder peer parrels down in ter de sellar."

The New York hotels are doing now a more thriving business than for many years, even in the busiest seasons, so that the late comers esteem themselves privileged to get accommodation in the larger establishments. At one house alone—the Astor—the arrivals have averaged over one hundred and fifty a day for upwards of a week including a number of ladies, of whom, this year, there are more at the leading hotels.

In the constitution being formed for Kansas, women are allowed to vote in school matters. They may vote for school officers, school taxes, and everything pertaining to the organization of Common Schools, equally with men. Conferring this much of the elective franchise upon females is intended as an experiment. We believe that females are allowed to vote in school matters in Canada and Louisiana.

To resuscitate a drowned Englishman, place a piece of roast beef under his nose; an Irishman, a gill of poteen; a Scotchman, a halfpenny; a Welshman, a few leeks; a Frenchman, a pinch of snuff; a Spaniard, some fresh blood; an old maid, an offer of marriage; a Yankee, attempt to pick his pocket.

At what age are ladies most happy?—*Ans.*—Marri-*age*.

Miscellany.

The man who was seriously injured by the discharge of duty, is said to be out of danger.

Anoint a villain and he will prick you; prick a villain and he will anoint you.

"Lord!" said Mrs. Partington, "what monsters these cotton-planters must be.—I am told that some on 'em have a hundred hands.

A young thief, charged with picking pockets, protested that he didn't pick them at all but took them just as they came.

A miser having threatened to give a poor man some blows with a stick, "I don't believe you," said the other, "for you have not the heart to give anything."

Polly being bantered one day by some of her female friends in regard to her lover' who had but one leg, she replied to them smartly, "Pooh I wouldn't have a man with two legs; they're too common!"

NO BAD RULE.—"I never come late to a friend's dinner," says Coileau, "for I have observed that when a company is waiting for a man, they make use of that time to load him with abuse."

The Springfield Republican says a novel idea is entertained in astronomical circles, which will be startling to every one. It is that of *picking* the great comet, so that he will carry up his tail.

A newspaper correspondent writes that while travelling in the South he attended a negro meeting, when the sable preacher offered an earnest prayer for "de white element in our population."

READING AND THINKING.—It was predicted of a young man lately belonging to one of our Universities, that he would certainly become a prodigy because he read sixteen hours a day. "Ah!" replied a fellow-student, but how many hours a day does he think?"

The Board of education of New York has resolved to apply to the next Legislature for an act empowering it to provide for free vaccination, and that no children be admitted to the public schools unless vaccinated.

A lady writes from Paris to say that the heat during the last week has been so intense that it is impossible to keep a secret for longer than an hour.—*Punch*

THE SPOILS IN VERMONT.—

"The Democrats will win," said Smith;
Quoth Le., "I shouldent wonder—
Already they are running with
Big Saxe to hold the plunder."

A wag remarked the other day, with a very grave countenance, that "however prudent and virtuous young widows might be, he had seen many a widow-err."

A VERY GOOD FASHION.—The latest "fashion" announced from Europe, is that of dressing very plainly when going to church. Some of the ladies "of the first circle" go up to worship in plain calico.—It is thus sought to encourage the attendance of the very poor, who have hitherto withheld their presence for lack of "Sunday clothes."

The English papers of a late date record the death of Gen. Proctor, who played an important part in the last war with Great Britain. He commanded the 82d regiment at the battle of Fort Erie, and subsequently served in the campaign along the Niagara frontier.

The Patent Office having obtained seeds of the cork tree from Europe, sent several packages last year to California, which possesses a climate similar to France and Spain, where it flourishes. These seeds were planted at Sonora, and about 87 per cent, of them have come up, and give promise of becoming stately trees.

QUEENLY BUT REDICULOUS.—The present Queen of England does not appear to disapprove of rigid courtly ceremonies.—When on a visit to the royal family of France at Eu, the Queen of Belgium had been told that her Majesty of England took every morning at ten o'clock a glass of iced water. Accordingly on the day after her arrival, a servant duly made his appearance at the appointed hour bearing on a silver salver a carafe and two glasses, which he tendered to the sovereign, who declined the refreshments with a wave of the hand. The Belgian Queen seeing this, whispered to her son, who was present, *to pour out* a glass of water, and offer it to the Queen; this being done, was graciously accepted, the fact being that etiquette would not allow her to pour out the water for herself when a servant was present! The Queen may not speak to a tradesman; and Victoria has been seen standing not a yard away from one, addressing all her inquiries to an equerry, who reported them to the tradesman, and again repeated to her Majesty all his answers.

All over the West, while the towns and cities have diminished in business and population, the country has increased in both. Men who would not live in town have gone out upon the prairies, determined that it is better to raise wheat than it is to trade on credit.

Arrival of the Steamer Hammonia.

NEW YORK, Aug 9.

The steamship Hammonia arrived this morning from Hamburg via Southampton 26th ult.

Ship Alina, from Calcutta from London, had been lost at sea. Twenty lives were lost.

The London Times of the 25th says that four notices are offered in the House of Commons on the subject connected with the military and naval defences of British Empire.

The London Times of Tuesday gives the preliminaries of the peace of Villafranca as follows:

The two sovereigns will favor the creation of an Italian Confederation. That Confederation shall be under the honorary Presidency of the Holy Father.

The Emperor of Austria cedes to the Emperor of France his rights in Lombardy excepting the fortresses of Mantua and Peschiera, which right the Emperor of France will hand over to the King of Sardinia.

Venetia forms a part of the Italian Confederation, but remains under the crown of Austria.

The Dukes of Tuscany and Modena are to return under the condition of granting a general amnesty.

Both Emperors will ask the Pope to introduce indispensible reforms.

A full and complete amnesty is to be granted to all the people.

DISEASED PORK.—The City Inspector of New York warns the people against purchasing pork during this hot weather, as large quantities of diseased pork are now daily thrown upon the market, the hogs having died of cholera. It is generally introduced during the night time, which prevents its detection and seizure.

Denslow's New Religion
IN MEDICINE!

The times have chang'd, since Denslow found
The use of Roots and Herbs,
Were hyge'nic on, more truthful ground,
And Ills of Life disturbs:
It was in olden times, 'tis said,
That Poisons held the cure—
And patients then, were surely bled,
To drain off blood impure;
'Twas then, when Ills in fury ran,
The Patient was reduc'd—
And on his back depletive flung—
By Alopaths seduc'd!
'Twas then, that Nature had no aid,
And Science was her foe—
While Ills the suff'ring forms pervade,
And Poisons were the go!—
'Twas then, that Scientifics taught,
That Poisons would transform,
Each Patient, who, with Ills were fraught,
And rout disease by storm!—
'Twas then, they taught, if Poisons cure,—
'Twas changing Ills for it—
When Nature was, most always sure,
To make hyge'nic fit!
But now, Botanics ev'ry where,
Teach quite reverse of that,
And use such aids as will compare,
With Nature's sure combat!
Then Nature in her prompt est flow,
Demands the Roots and Herbs,
To aid her to a healthful glow,
When fell Disease disturbs.
And People all, should know the where,
To get these kindest aids,
To build up Nature blooming fair,
While health their forms pervade!
And faith—its "Denslow in the rear,"
Who has them all on hand,
As fresh as from the Earth they peer,
Or in the forest stand!
There, all can get the Native Cures,
Which grow on ev'ry Farm,
That depurates, and health secures,
Without the least alarm!
He has these Plants in compound form,
Made up with propper skill—
And Composition, too, that's warm—
In Powder, or in Pill!—
In Syrups, too, for great and small,
That's powerful and right—
And Drops that makes the sweat to fall,
And show disease a fight!
He asks no odds of any man,
In getting up a sweat,
And with his Physopathic plan,
He'll cure a Nervous fret!
Oh, ye that would the Truth receive,
And practice honest right,
And thus to Self most faithful live,
Do not Botanics slight:
For in these Herbs, there's teeming life,
That points to all alike,
With such recuperative strife,
That fell Disease, 'twill strike!
'Tis God who permeates them all,
Imparting well its Cures—
And hence, the Devil would forestall,
What He to us secures!
But Denslow waits, a chance to tell,
His Majesty the right,
Which hath to Demons even fell,
And blas'd to them its light!
Yet when he opens front again,
He'll fire a louder gun!—
And scatter Fogie's Logic train,
Beyond the setting Sun!

MEDICINES.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from a disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
